CHECK YOUR HOT SPOTS

A kerosene heater can reduce your heating bill. It can also become the most dangerous thing in your house if you don't use it right. Buy K-1 kerosene only. Remember, there is no substitute for safety! Some other tips to keep in mind:

- Use only where approved by local authorities.
- Don't use gasoline or camp-stove fuel.
- Store kerosene outside and refuel outside as well.

If you have questions, ask the fire department. Fire prevention is their mission. Make it yours too!

A message from your local fire department, LLR - Office of State Fire Marshal, and the U.S. Fire Administration.
